Services

Depending on the permissions configured by the administrators students might not have access to all options/information, contact the administrators as needed for help

This screen lets students view what **services** are available in each **Location** around campus.

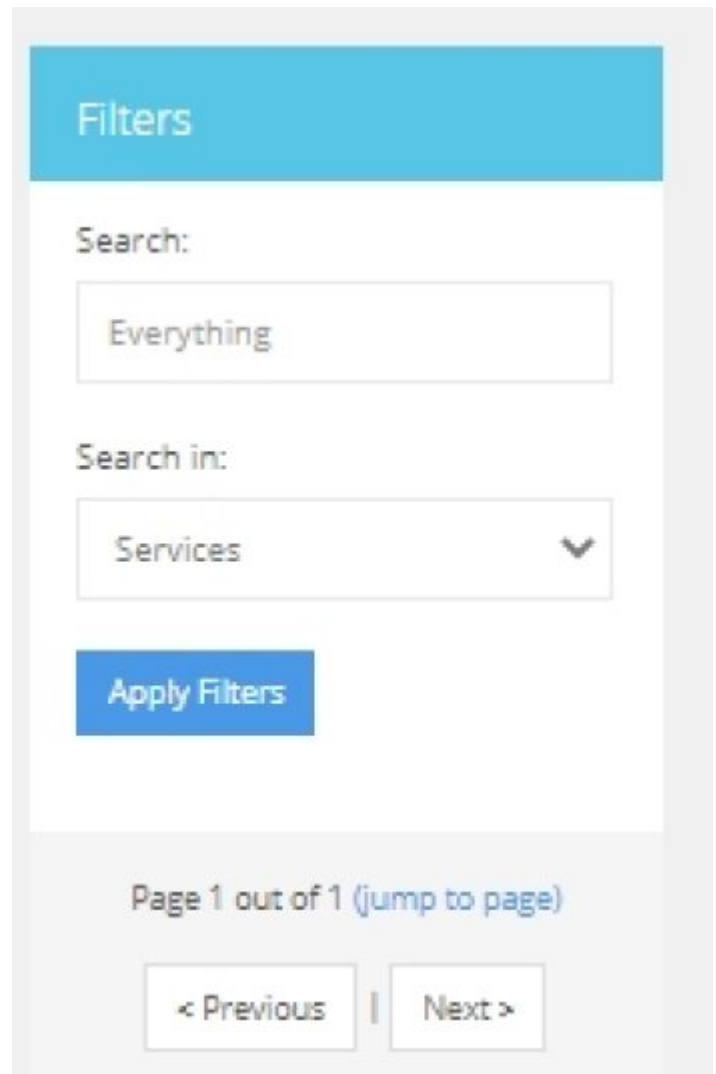

How to Access: General > Services

Purpose: Used to view **Services** in AccuCampus.

Services Buttons

- **Compass Categories** - Students use this option to see a list of **Compass Categories** that they can create for use with the **Compass** used by the **Student** both in the AccuCampus app and when they log in online.
- **Locations** - Use this option to see a list of **Services**.
- **Search Filter (Magnifying Glass)** - This filters the current view of the **Services** on this screen to only show the Users that match the typed search criteria.

Services Search Filter (Magnifying Glass)

- **Search-** Use this option to search for a text in all the Services in **Accucampus** (OR in a certain category as selected below in the “Search in” option).
- **Search in-** Use this option to restrict the Search above to a certain Category.

Services List options

For each Service/row in the list, there might be a few options shown:

- **Location Availability** - Use this option to see a list of **Locations** where this **Service** is provided. (see next sample)

MyPlan Assistance

Locations

Locations

One Stop

A-106

A-107

Cohen Center 162

- **Rating options** - Next to each **Service** name students have the option to rate it and/or write a review. (This is based on permissions for their role(s)) (see next sample)
