Select a device to learn the options to track attendance:

Click on the options below to choose the device to track class attendance for your classroom!

button.accordion { background-color: #eee; color: #444; cursor: pointer; padding: 18px; width: 100%; border: none; text-align: left; outline: none; font-size: 15px; font-weight: bold; transition: 0.4s; } button.accordion.active, button.accordion:hover { background-color: #7c9f22; color: #000000; } div.panel { padding: 0 18px; display: none; background-color: white; } .accordion:after { content: '\02795'; /* Unicode character for "plus" sign (+) */ font-size: 13px; color: #777; float: right; margin-left: 5px; } .active:after { content: "\2796"; /* Unicode character for "minus" sign (-) */ } Use an Apple or Android device to:

- Using an Apple or Android device
- Sign the students in by reading a QR barcode with the device's camera.
- Sign the students in by swiping their ID card with a magnetic strip reader.
- Send out a beacon notification via Bluetooth that allows students with the AccuClass app to Sign-in. - *Now Available!*

Go to Apple or Android Devices

Use a computer/laptop in the classroom to:

- Call the roll and manually mark absent/late students.
- Sign the students in by reading a RFID/proximity reader. Have the students pass their RFID key fob over the RFID reader to record their attendance.(click here for ordering info)
- Setup a sign-in station and have students sign in by swiping their student ID card in a magnetic strip reader or barcode reader.(click here for ordering info)
- Setup a sign-in station and have students can also type their ID number on the keyboard into a sign-in station to sign-in for class.
- Have a QR code displayed on a screen to have student scan-in on their **AccuClass** app. - *Now Available!*

Go to Computer/Laptop Devices

Use one or more time-clocks mounted on the wall:

- Have students sign-in at the time clocks.

Go to Timeclock Device

Use an Apple iPad or iPad mini mounted in a kiosk:

- Have the students sign-in by reading a barcode with the iPad's front camera while keeping the device locked to display a classroom's scheduled courses through out the day in a tamper-free kiosk mode.

Go to Mounted iPad Device
