

General Menu | Next - Import Data

Accudemia Data Exchange (ADX)

Installing/Uninstalling ADX

Use ADX Accudemia Data Exchange to upload your college database.

In order to start, you need to **download ADX** while logged into Accudemia under **Advanced >** Import

button.accordion { background-color: white; color: #286DA8; cursor: pointer; padding: 18px; width: 50%; border: none; text-align: left; outline: none; font-size: 21px; font-weight: bold; transition: 0.4s; } button.accordion.active, button.accordion:hover { background-color: #7c9f22; color: #000000; } div.panel { padding: 0 18px; display: none; background-color: white; } .accordion:after { content: '\02795'; /* Unicode character for "plus" sign (+) */ font-size: 13px; color: #777; float: right; margin-left: 5px; } .active:after { content: "\2796"; /* Unicode character for "minus" sign (-) */ } .note { background-color: #ffffcc; border-left: 6px solid #ffeb3b; } Installing ADX

The following options are the minimum system requirements and compatibility to install and use ADX.

System Requirements

- **Computer:** PC with a Pentium class processor.
- Peripherals: A keyboard and a Mouse or pointing device
- Memory: 3 GB or higher recommended
- Hard disk space: 10 GB of free hard drive space.
- Video: 1024 x 768 resolution. High color 16-bit recommended
- **Operating System:**Microsoft Windows XP or later. (This includes Windows Vista, Windows 7, Windows8, Windows 8.1, Windows 10, and/or Windows Server 2008, Windows Server 2012, Windows Server 2016, Windows Server 2019, Windows Server 2022)

Software Requirements

• .Net Framework 4.8 installed: ADX requires this framework to work correctly; when you install/update ADX it should also install this framework.

If for some reason the framework does not install when installing ADX then perhaps your system already has it; please make sure that the framework is indeed installed, and if not then go to the official Microsoft website and install it in order to use ADX correctly.

If you want to be able to follow the helpful links you can find in ADX you would need to have a Web browser like Google Chrome, Microsoft Edge, or similar

To start installing the software, click on the following link (or copy and paste it in the browser's address bar if it doesn't work):

http://install.accudemia.net/Files/?f=AccudemiaDataX_x86/setup.exe

Click on the **setup.exe** file that can be found in your downloads folder or on your browser.

If you get a warning message, you can click the "Run Anyway" and then "Install" when asked.

Follow the on-screen instructions to install ADX.

Uninstalling ADX

To uninstall ADX:

In Windows XP:

- 1. Go to the Control Panel:
 - a. Click the **Start** button
 - b. Select Control Panel
- 2. View the list of programs:
 - $\,\circ\,$ In Windows XP, click the Add or Remove Programs link

- 3. In the list of programs now select "Accudemia Data Exchange".
- 4. Start the removal process:
 - \circ In Windows XP, to the right of the program name, click the **Remove** button
- 5. Select the "Remove the application from this computer" option and click **OK**.
- 6. Follow the prompts until the uninstall process completes.

In Windows Vista/7:

- 1. Go to the Control Panel.
 - 1. Click the **Start** button.
 - 2. Select Control Panel.
- 2. View the list of programs.
 - In Windows Vista/7, under **Programs**, click the **Uninstall a program** link.
- 3. In the list of programs now select "Accudemia Data Exchange".
- 4. Start the removal process.
 - In Windows Vista/7, above the list of programs, either click the **Uninstall** button or click the **Uninstall/Change** button.
- 5. Select the "Remove the application from this computer" option and click **OK**.
- 6. Follow the prompts until the uninstall process completes.

In Windows 8:

- 1. Go to the Control Panel.
 - 1. On the Start screen, type: "control panel", and click on the **Control Panel** tile.
- 2. View the list of programs.
 - In Windows 8, under **Programs**, click the **Uninstall a program** link.
- 3. In the list of programs now select "Accudemia Data Exchange".
- 4. Start the removal process.
 - In Windows 8, above the list of programs, either click the **Uninstall** button or click the **Uninstall/Change** button.
- 5. Select the "Remove the application from this computer" option and click **OK**.
- 6. Follow the prompts until the uninstall process completes.

In Windows 10:

- 1. Go to the Control Panel.
 - 1. Click Cortana, type: "control panel", and click on the Control Panel tile.
- 2. View the list of programs.
 - In Windows 10, under **Programs**, click the **Uninstall a program** link.
- 3. In the list of programs now select "Accudemia Data Exchange".
- 4. Start the removal process.
 - In Windows 10, above the list of programs, either click the **Uninstall** button or click the **Uninstall/Change** button.
- 5. Select the "Remove the application from this computer" option and click **OK**.
- 6. Follow the prompts until the uninstall process completes.

Backup/Restore your ADX configurations

button.accordion { background-color: white; color: #286DA8; cursor: pointer; padding: 18px; width: 50%; border: none; text-align: left; outline: none; font-size: 21px; font-weight: bold; transition: 0.4s; } button.accordion.active, button.accordion:hover { background-color: #7c9f22; color: #000000; } div.panel { padding: 0 18px; display: none; background-color: white; } .accordion:after { content: '\02795'; /* Unicode character for "plus" sign (+) */ font-size: 13px; color: #777; float: right; margin-left: 5px; } .active:after { content: "\2796"; /* Unicode character for "minus" sign (-) */ } .note { background-color: #ffffcc; border-left: 6px solid #ffeb3b; } Backup ADX configurations

In order to backup your import job configurations and login credentials stored in your current ADX installation you'll need to do the following:

On the machine where you have ADX currently installed and configured press the Windows
Logo key + R to open the run dialog box.

🖃 Run	
<u>O</u> pen:	Type the name of a program, folder, document, or Internet resource, and Windows will open it for you. C:\Users\%username%\AppData\Local\Apps\2.0\Data\
	OK Cancel <u>B</u> rowse

• Type:

C:\Users\%username%\AppData\Local\Apps\2.0\Data\

where *%username%* should be automatically replaced with the name of the *Windows User Account* you're logged into the PC currently.

 You'll notice inside this folder there will be several uniquely numbered folders per ADX installation. Search for and locate a file labeled **APPLICATION.FDB** inside of one of these subfolders.

🔜 🕑 📃 = Data	-		×
File Home Share View			~ (
← → ~ ↑ 📙 « AppData > Local > Apps > 2.0 > Data	✓ ひ Search Data		P
★ Quick access A Name Name Name X7TXXWKH.0EO Creative Cloud Files	Date modified Type 9/11/2012 12:05 PM File folder	Size	
ConeDrive			

3. Now select the file, right-click it, and select **Copy**.

(If you find more than one of these files choose the one with the latest date)

4. Finally right-click the location you want to backup the configuration file and select **Paste** to backup this **APPLICATION.FDB** file in a safe location where you want to it saved (a network share or another server).

Restore ADX configurations

Now to move the configurations to another machine, you need to put that file in another ADX installation. To do so, do the following:

- 1. First, download and install ADX on the new machine.
- 2. From the new machine locate the **APPLICATION.FDB** file from the saved safe location.
- 3. Now right-click and choose to copy the backed-up APPLICATION.FDB file.
- 4. On the new machine press the **Windows Logo key + R** to open the run dialog box.

🖅 Run	
	Type the name of a program, folder, document, or Internet resource, and Windows will open it for you.
Open:	C:\Users\%username%\AppData\Local\Apps\2.0\Data\
	OK Cancel <u>B</u> rowse

◦ Type:

C:\Users\%username%\AppData\Local\Apps\2.0\Data\

where *%username%* should be automatically replaced with the name of the *Windows User Account* you're logged into the PC currently.

 You'll notice inside this folder there will be several uniquely numbered folders per ADX installation. Search for and locate a file labeled **APPLICATION.FDB** inside of one of these subfolders.

6. Finally right-click in the folder location and **paste** the **APPLICATION.FDB** file you have backed

up to replace the **APPLICATION.FDB** file you just found on this new PC.

Scheduled Imports / Automated Exports

In this section you'll learn what you need to do in order to schedule imports or exports. There are some prerequisites that we'll review as well in order to complete this process. All of these have been explained above but you can review these are the prerequisites links:

- 1. Download and install ADX (Accudemia Data eXchange).
- 2. Setup an Import Job or Export Job
 - Scheduled Import Options:
 - 1. Any Import Type
 - Scheduled Export Options:
 - 1. **All Users** Lists all users in the system, including some useful information such as email, address and phone number.
 - 2. **Students** Lists all students in the system, with detailed information.
 - 3. Tutors Lists all tutors in the system, with detailed information.
 - 4. Instructors Lists all instructors in the system, with detailed information.
 - 5. Classes Lists all classes in the system.
 - 6. Subject Areas Lists all subject areas in the system.
 - 7. Student Enrollment Gets all students and the classes where they are enrolled.
 - 8. **Tutor Assignments** Lists all tutors assigned to a subject area, and their assignment.
 - 9. **Session Logs** Lists all session logs registered in the past, including the details of each one them.
 - 10. Last 7 Days Session Logs Lists all session logs registered in the last 7 days, including the details of each one of them.
 - 11. **Last Month Session Logs** Lists all session logs registered in the past month, including the details of each one of them.
 - 12. Last 3 Months Session Logs Lists all session logs registered in the past 3 months, including the details of each one of them.
 - 13. Last 6 Months Session Logs Lists all session logs registered in the past 6 months, including the details of each one of them.
 - 14. Last Year Session Logs Lists all session logs registered in the past year, including the details of each one of them.
 - 15. **All Appointments** Lists all appointments made in the past and in the future.
 - 16. Last 7 Days Appointments Lists all appointments made in the last 7 days.

Once these are complete you should be able to schedule your import / export as explained below:

• Schedule Imports / Exports in ADX (Accudemia Data eXchange).

Prerequisite 1 - Download and install ADX

http://www.attendance-tracking.com/docs/

Step 1: When you log into Accudemia as a System Admin Go to Advanced > Imports

nport Data to Accudemia		User Accounts User Groups			
DVERVIEW In today's information-intensive workplace, exchanging information among and fast solution for analyzing, reviewing and bringing all your information is toy benefits of Accudemia Data Exchange (ADX) include: User Experience that Helps You Stay Preductive: ADX has a familiar user preview it before it gats imported into Accudemia and prevent problems is Enterprise Ready: ADX is a resilv powerful and fast solution for exchange Rich and Flexible Development Platform: ADX is easily extensible for this Framework.	nto Accudemia. Interface which lets you select the data fir, ifft the system while other users keep wor ig information among your different system	Sign in Stations Subject Areas Surveys Offlimes Centers & Rooms Terms Advanced Control Panel	rides an easy including the most common Role Group Templates Revienal Templates Technical Contacts	Accudemia Data Exchange Indiversibility used Comma Separated File (CSV) format. You can tol keep all your applications always in sync. Tata from custom applications using the .NET	
Download the Import Utility	Migrate from AccuTrack		Developers	cutions	
Accudemia Data Exchange (ADX) is the import tool you need to import data to Accudemia or export data on a regular basis. Currently available only for Windows 7 or newer (32 and 64-bits installations).		Track information to comm mported using ADX. You wil		1 ADX, your source file is processed and idemia; it might take a while until the uploaded imported and becomes available for all users.	

Step 2: Then under the "Get it Now!" Heading click on the following Icon:

Step 3: Follow the instructions to install. Then go ahead and store your login credentials on the first screen.

Co	nnect to Accuden	nia
	Accudemia	Accudemia Data Exchange
	User ID: Password: Domain:	d00668189 nick.accudemia.net
M	lore Options >>	
1	Connecting	QK Cancel

Prerequisite 2 - Setup an Import Job or Export Job

Step 1: Once logged into the software/school.accudemia.net site, click on either "New Import Job" or "New Export Job":

📴 Accudemia Data Exchange			-	×
Eile Iools Help				
Mark Students Active Import \varTheta	î	Accudemia Overview		
Last time run: never Status: unknown <u>View Details</u>		Recent Activity Feb 22: Typical All-in-one Import Job execution succeeded

Last time run: 2/22/2019 2:00:19 AM Status: OK	~			
Ready				.t

Step 2: Once you click "next" on the first screen of the import/export wizard, either:

- 1. Select the CSV file for the import **OR**
- 2. Select the type of export job and the file location with the name you want to use for the export file

by clicking **browse(...)** button and when done finally click **next** button.

Step 3: Now if importing ADX wants you to map the fields with drop-downs to each of the ones in your CSV file. Click next when done.

Note: Exports will not have this step.

Want to run the ADX Import/Export Job when you are not logged in?

If you happen to need to run the scheduled automated imports / exports when the user is not logged into the computer or server you'll need to go directly into the **Windows Task Scheduler** itself and set this permission by editing the properties of the ADX import job.

http://www.attendance-tracking.com/docs/

- 1. First, open **Windows Task Scheduler** from the Windows Start menu or settings.
- 2. Next, right-click the ADX Import job in the **Task Scheduler Library** window and select **Properties**.

roperties.

4. When you click **OK** at the bottom you'll now be prompted to enter and store your Windows User Credentials.

If you ever change your passwords then you'll need to come and update this section.

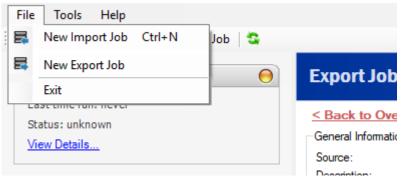

Other Options in ADX

In this section we'll explore the different options you have available in the ADX toolbars.

File

These are the typical actions you would perform in ADX:

📃 Accudemia Data Exchange

Create New Import Job

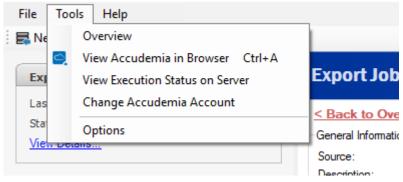

For more details on this process visit this page.

Create New Export Job

For more details on this process visit this page.

Tools

These are some useful options available to you while working in the import/export tool.

Overview

This menu option takes you to an overview of the past ran jobs in ADX.

View Accudemia in Browser

This option passes over the credentials of the user currently logged into the ADX application to

accudemia.net so they can look at account settings and import history without having to re-login.

View Accudemia in Browser

This option also passes over the credentials of the user currently logged into the ADX application to accudemia.net but take the user specifically to the import history on the server without having to relogin.

Change Accudemia Account

This option allows you to change/update/designate who is logged in to run the imports.

This person will be sent the status of the imports via email on whether or not they failed or succeeded on the Accudemia server-side.

Options

This section gives you additional means to use, troubleshoot, and analyze import or export jobs that are having issues.

General Tab

This section allows you to email notifications about Imports/Exports failing or succeeding to a list of individuals by placing emails separated by a return in the textbox. If you want to email 2 people about only failures see below:

otions

Help

In this section we'll find helpful links to support resources, software updates and version information.

Contact Support

This option will open an email addressed to our Accudemia Support Team in your computer's designated mail program/application such as Outlook, ThunderBird, etc.

Last update: accudemia:7:it-staff:manual:adx http://www.attendance-tracking.com/docs/doku.php/accudemia/7/it-staff/manual/adx 2023/01/13 11:55

Documentation

This option will direct you out to this guide. Congrats! You are already here.

Accudemia Forums

This link will take you out to the Accudemia Forums to search for answers to frequently asked questions, view helpful tips, and interact with other registered Accudemia clients to see how they run imports, etc.

Check for Updates (Software Updates)

This link will check if that are any updates needed

About Accudemia Data Exchange

How do I find My ADX Version Number? This link will show the exact version number of ADX you currently have installed.

General Menu | Next - Import Data
