Conference Tracker Feedback

Engineerica Systems values your feedback and provides a great resource to collect these improvement ideas. We know our user's ideas make excellent suggestions for the next release of Conference Tracker, Conference Leads, and/or Conference Attendee. To do this we offer our the Conference Tracker User Voice website. Simply visit the following website to submit your ideas for improving the software: http://conftrac.uservoice.com

Here's how it works

- You can submit up to 10 ideas or 10 votes whichever comes first.
- You can submit up to 3 votes per idea to weight them.
- This is available to any Exhibitor in the Conference Leads App.

The user voice is a great way for our users to get their ideas straight to the programmers as well as a great tool for our programming staff to organize and manage the ideas. These ideas, if selected, will be implemented in the next release of Conference Tracker and you will receive your votes cast on them back. More information on how the site works can be found by watching this short YouTube presentation:
http://www.youtube.com/watch?v=j7_Qp62KFHA

I hope this information is helpful and you have a great day!
