Exhibitor Lead Retrieval after the Conference

The purpose of this document is to explain how an exhibitor at a conference who scanned attendees using our iConf Leads Apple App at a conference can login to the **Conference Tracker** website and view or export a list of leads captured on their Apple device.

1. Login to the **Conference Tracker** website using the following credentials:
   http://www.conftrac.com

   Domain: _____

   E-mail: _____

   Password: _____

2. To view the leads you have gathered during the conference click on the **Leads** link on the **Conference Tracker** home screen under Lead Retrieval.

3. Notice you will get a list that looks like this when viewing the data in **Conference Tracker**.

4. To export the leads you have gathered during the conference click on the **Export Data** link on the **Conference Tracker** home screen under Lead Retrieval.
